POST OFFICE BILL.

Measure Reported to Senate by the Committee After Two Days' Consideration.

SALARY OF RURAL CARRIERS, \$720

They Are Permitted to Carry Merchandise and Receive Subscriptions and Deliver Newspapers.

That is, So Long as This Occupation Does Not Interfere With the Proper Discharge of Their Duties to the Government.

Washington, March 30.—After two days' consideration of the post office appropriation bill the senate committee reported it Tuesday night and it was taken up in the senate Wednesday. The bill reported does not include all the amendments made by the senate committee on account of the late session in order to complete a measure. A "dummy" bill was reported while the clerks prepared the measure for the public printer. On account of its incomplete state the exact amount of the increase made can not be given, though it is said the bill will carry not more than \$1,000,000 over the bill as passed the house except for an emergency measure incorporated in the bill. The house bill provides for the rental of the Pennsylvania railroad site in New York city for post office purposes, but the senate committee decided that it would be better business policy to buy the site. Therefore, an appropriation of \$2,000,000 is made for that purpose.

Among the important amendments to the bill are the following: The salaries of rural free delivery carriers are fixed at \$720 a year and the carriers are permitted to carry merchandise for hire and receive subscriptions for and deliver newspapers and periodicals so long as this occupation does not interfere with the proper discharge of their duties. It is stipulated, however, that the carriers shall not discriminate against any newspaper, which desires to avail itself of the privilege of employing them. Senator Clay's amendment increasing the salary of the purchasing agent for the post office department to \$4,500 and requiring that all supplies must be bought by competitive bids, the contracts to be given to the lowest bidders and that a schedule of the bids must be sent to congress annually, was adopted.

The committee adopted an amendment for the retransfer of the free delivery in cities to the first assistant postmaster general's division, instead of leaving it with the fourth assistant. The senate committee provides for the purchase or rental of cancellation machines instead of purchase alone, as provided by the house bill.

Provision for the payment to the Oceanic Steamship Co. at a rate of \$1 per mile for the carrying of mail between San Francisco and Tahiti was restored to the bill. This provision has been in the post office appropriation bills for a number of years but was eliminated by the house at this session on the ground that it was in the nature of a subsidy. The senate committee has restricted the payments to \$45,000 annually.

THE DEMOCRATIC CONVENTION.

St. Louis Business Men Subscribed \$40,000 Toward Expenses.

St. Louis, March 30.—It was announced Tuesday by the local committee in charge of the arrangements for the national democratic convention, which will be held here beginning July 6, that the \$40,000 pledged to the national committee, has been subscribed by business men. The national committee will meet here next Monday to arrange definitely for seating arrangements during the convention. The local committee has planned, subject to the approval of the national committee, to place the speaker's stand on the north side of the coliseum. It is estimated that the arena will have a seating capacity of 4,000, and, in that division, will be seated the delegates and newspaper representatives. The gallery and balconies will be reserved for spectators.

CONGRESSIONAL.

Bill to Erect An Additional Executive Department Building Debated.

Washington, March 30.—Senate.—The bill authorizing the erection of an additional executive department building in Washington Tuesday was given the subject of spirited debate in the senate and after several hours' debate it remains unacted upon. Senators divided largely on the question of location but there also was talk as to the necessity of better office accommodations for the senate and the supreme court. During the day there was renewed effort to pass the bill prohibiting the misbranding of salmon, but owing to the opposition of senators who hold that the bill is calculated to interfere with the rights of individual states under the guise of an effort to control interstate commerce a vote was not reached.

House.—For the want of speakers general debate on the sundry civil appropriation bill in the house was closed several hours before the time agreed on and the bill was read for amendment. Seventy-five pages were disposed of, the only important amendment adopted being one providing for an initial appropriation of \$500,000 for the completion of the capitol building according to the original design. Mr. Campbell (Kan.) and Mr. Williams (Ill.) were the principal speakers, the former defending the protective tariff policy of the republican party and the latter denouncing the republicans for failing to investigate the post office department. Mr. Williams said that the scandals in the department will become an important issue in the coming campaign.

FOUR MEN DROWNED.

Their Boat Capsized While Out Hunting Ducks.

Chicago, March 30.—Four men were drowned Tuesday in Lake Calumet by the capsizing of their boat while hunting ducks. A very high wind was blowing over the lake Tuesday and the water was very rough. The men were seen from the shore to rise in their boats and fire at a large flock of ducks that passed over them. Just as they fired their boats went over and all four men were thrown into the water. Joseph Vought, watchman of the Pullman Co., and Edward Frazier, a fisherman, tried to save them, but when they reached the spot where the boats capsized, all of the men had been drowned. Bodies were not recovered.

THE ILLINOIS MINERS.

The Settlement of Wages Left to a Sub-Committee.

Springfield, Ill., March 30.—The joint scale committee of the operators and miners Tuesday settled the Franklin county scale (a county in which the mines have been developed since last June), but fixing the rate at 45 cents per ton. The miners wanted 48 cents but finally gave in. Franklin county having been disposed of, this left only the scale for the first, or northern district, in controversy, and this was referred to a sub-committee. The joint committee will take up the matter Wednesday morning, and report to the joint convention Wednesday afternoon. Prospects still favor a week's fight.

A RUSSIAN DEFEAT

An Important Engagement Took Place Near Town of Chong Ju on March 28.

RUSSIANS RETIRED IN GOOD ORDER

Japs Fought Gallantly But Owing to Heavy Loss Were Unable to Occupy the Abandoned Position.

In the Battle Cavalry and Infantry on Both Sides Were Used—The Combat Lasted For About Half An Hour.

St. Petersburg, March 30.—The emperor has received a dispatch from Gen. Kuropatkin giving a lengthy report from Gen. Mishchenko, dated at 10 p. m., March 28, which says that an important engagement took place near the town of Chong Ju, in which the Russians were defeated, retiring in perfect order.

The Japanese suffered heavily, but the Russian losses are not stated.

Cavalry and infantry on both sides were engaged. The Russians occupied a commanding position.

The Japanese fought gallantly, but owing to their heavy losses were unable to occupy the position abandoned by the Russians.

Gen. Kuropatkin, in his first report to the emperor from the scene of war, announced that offensive land operations had taken place against the Japanese upon the sixth anniversary of the occupation of Port Arthur by the Russians. These operations took the form of a cavalry attack Monday by six companies of Cossacks, led personally by Gen. Mishchenko against four squadrons of Japanese cavalry, which the general believed to be beyond Chong Ju, but which he found to be in occupation of that town.

Despite a cross fire which Gen. Mishchenko cleverly directed against the enemy, he pays a tribute to their tenacity and bravery, the Japanese only ceasing to fire after a combat which lasted for half an hour. Before the Russians could follow up their advantage three Japanese squadrons galloped toward the town which two of them succeeded in entering while the third was driven back in disorder, men and horses falling.

The fire maintained on the town was so destructive that the Japanese were unable to make an effective return.

Further Japanese reinforcements arrived an hour later and in view of the superiority of the enemy Gen. Mishchenko determined to retire, doing so without embarrassment, although he carried with him three killed and 16 wounded.

Gen. Mishchenko's Cossacks have been endeavoring for some days to come in contact with the Japanese patrols, but the latter refused the combat.

The skirmish of Monday will have the effect of encouraging the Russians to retard as much as possible the advance of the Japanese army.

Gen. Kuropatkin's dispatch reporting Gen. Mishchenko's operations as published does not give the place of its origin, but it is presumed that the commander-in-chief is either at Liao Yang or en route to New Chwang.

Now It Is Discovered He Is Not a Citizen of the United States.

Kenosha, Wis., March 30.—After presiding as a judge over a justice court for seven years, hearing cases brought for trial, solemnizing marriages and attending to all the duties of a justice, William Evans, of the town of Halem, in this county, discovered Tuesday morning that he was not a citizen of the United States and that all of his acts were void. Deputy Sheriff Vaughn thinks he hit Burton twice. Deputy Vaughn held on to Tom and secured aid from this place to hunt for Albert. A reward of \$50 has been offered for the arrest of Albert.

SOUTHERN INDIANA

Great Damage Being Done to Farms and Buildings by the Raging Waters.

SEVERAL MINES FORCED TO CLOSE

The East Span of the Big Steel Bridge at Bloomfield Was Swept Away Tuesday.

Steamboats and Rafts Are Being Used to Rescue People and Live Stock in the Vicinity of Mt. Carmel, Ind.

Indianapolis, Ind., March 30.—All rivers tributary to the Wabash and Ohio are overflowing and great damage has been done to farms and buildings throughout Southern Indiana. At Vincennes the danger seems greatest. Every precaution is being taken to prevent the possible breaking of levees. All sanitary sewers have been stopped with sand bags. Nearly all of the large manufacturing plants have been forced to close and it is thought that the city gas plant would be closed Tuesday night. The electric light and power plant is also in danger. Several of the city bridges are in danger and the Evansville & Terre Haute railroad has suspended operations. In the White river bottoms 10,000 acres of wheat are inundated.

At Petersburg, the river has backed into several mines, forcing them to close. Hazelton is completely isolated.

The gauge at Evansville registers 35 feet 8 inches, which is almost a foot above the danger line. Between Evansville and Terre Haute several levees have broken, flooding hundreds of valuable farms.

Tuesday the east span of the big steel bridge at Bloomington, the only remaining bridge across the White river for a distance of 50 miles, was swept away. No trains are running through Greene county.

Mt. Carmel, Ind., March 30.—The Wabash and White rivers are still rising. The government gauge registers 24.7 feet above the low water mark. There is a strip of land through this county varying from two to six miles in width, which is covered with water. Steamboats and rafts are being used to rescue people and live stock. Many factories have been forced to close. The wheat crop in this county is ruined.

Evansville, Ind., March 30.—A special from Carmi, Ill., says the Little Wabash river is rising at the rate of an inch an hour and the gauge shows a foot less than the highest water ever known. The entire east side is under water. Hundreds of families are homeless and the loss will reach hundreds of thousands of dollars. The flood is expected to be the greatest ever experienced by Carmi people.

Sullivan, Ind., March 30.—The break in the Gill township levee is now 135 feet wide and the water is flowing through the gap at the rate of 1,000,000 gallons a minute. Three hundred feet of the Illinois Central tracks to the west of Riverton bridge forms a dam over which the water is flowing into the bottoms at a rapid rate. Much live stock has been killed.

Maysville, Ind., March 30.—The White river has passed the record stage and is still rising at the rate of an inch an hour. The Baltimore & Ohio Southwestern tracks are washed away near Logosotee and trains are being run by the way of North Vernon and Vincennes. Tuesday, for the first time since Friday, the E. & I. railroad ran a train through to Newberry.

A REPUBLICAN Congressman actually wanted to amend the postoffice bill so as to reimburse the railroads to the extent of \$50,000 for carrying the President about on his electioneering tour last summer. Could this item be classed under the head of transporting the males?

If the measure is as reported the Legislature did another bugging piece of work in the bill aimed at Berea College. It is said the law reads that a negro school and white school shall not be conducted within twenty-five miles of each other. If this is correct, and the provision is carried out, it will affect every school in every city in the State.

THE WATER QUESTION.

Company Figuring on Plans For Improving the Quality of the Supply.

Editor Bulletin: Our City Council meets this coming Monday night. There are a great many business matters to be brought up, but one that should have the most consideration is the water question. This is of vital importance, as the health of the entire community depends upon pure water. It is not necessary to mention what is being furnished the consumers by the water company. Every one knows that every reputable physician in Maysville will bear out this article, that the water furnished is not fit for any use under any condition. Let our City Council get out of the rut that they are in and make some kind of an effort to have the matter remedied.

The justice of the above complaint is recognized by all. In this connection, the BULLETIN is glad to state that the water company has been figuring for some time on important improvements in the plant with the object of improving the quality of the supply. With this object in view the company has purchased a lot adjoining the pumping station in the Fifth ward. Two plans for a filtering system are under consideration, but nothing has been definitely decided on. One plan is to sink a clear-water well on the new lot; the other is to construct the filtering system in the river.

The company is securing figures at present as to the cost and feasibility of the two systems under consideration.

This is an improvement long needed, and it is to be hoped the company will be enabled to complete it at the earliest date possible.

Among her last words were, "I have lived in the faith and done what I could." She has gone from a land of suffering to a land whose inhabitants never know pain.

FRANK OWENS HARDWARE CO.

Whiskey and Beer Habit

PERMANENTLY CURED BY
"ORRINE,"

A SAFE, SURE AND HARMLESS SPECIFIC

Physicians pronounce drunkenness a disease of the nervous system, creating a morbid craving for a stimulant. Continued indulgence in whiskey, beer or wine eats away the stomach lining and stupefies the digestive organs, thus destroying the digestion and ruining the health. No "will power" can heal the inflamed stomach membranes.

"ORRINE" permanently removes the craving for liquor by acting directly on the affected nerves, restoring the stomach and digestive organs to normal conditions, improving the appetite and restoring the health. No sanitarium treatment necessary; "ORRINE" can be taken at your own home without publicity. Can be given secretly if desired.

CURE GUARANTEED OR MONEY REFUNDED.

Mrs. E. Wycliff, New York City, writes: "ORRINE" cured my husband, who was a steady drunkard for many years. He now has no desire for stimulants, his health is good and he is fully restored to manhood. He used only five boxes of "ORRINE."

Mrs. W. L. D., Helena, Mont., writes: "I have waited one year before writing you of the permanent cure of my son. He took sanitarium treatment, as well as other advertised cures, but they all failed until we gave him 'ORRINE.' He is now fully restored to health and has no desire for drink."

Mr. A. E. L., Atlanta, Ga., writes: "I was born with a love of whiskey and drank it

for thirty-two years. It finally brought me to the gutter, homeless and friendless. I was powerless to resist the craving and would steal and lie to get whiskey. Four boxes of 'ORRINE' cured me of all desire and I now hate the smell of liquor."

Price \$1 per box. Mailed in plain, sealed wrapper by Orrine Company, 817 14th St., Washington, D. C. Interesting book—Treatise on Drunkenness, (sealed free on request. Sold and recommended by
